

ASST. LAUNCH DIRECTOR

LAUNCH DIRECTOR

1
00:00:03,750 --> 00:00:02,149
yes sir i have performed my launch

2
00:00:06,470 --> 00:00:03,760
status check poll

3
00:00:08,790 --> 00:00:06,480
and i have two logos one from houston

4
00:00:10,230 --> 00:00:08,800
flight and one from sro both weather

5
00:00:12,470 --> 00:00:10,240
related

6
00:00:14,910 --> 00:00:12,480
i copy that and range weather launch

7
00:00:16,630 --> 00:00:14,920
director on

8
00:00:18,950 --> 00:00:16,640
212.

9
00:00:21,109 --> 00:00:18,960
character range weather spam i believe

10
00:00:23,670 --> 00:00:21,119
you still also show uh

11
00:00:25,269 --> 00:00:23,680
range weather violations as well that's

12
00:00:27,429 --> 00:00:25,279
correct we are red on the cumulus

13
00:00:31,429 --> 00:00:27,439

carburetor the anvil rule the field mill

14

00:00:35,670 --> 00:00:33,670

okay after that and up manager launch

15

00:00:38,310 --> 00:00:35,680

director go ahead

16

00:00:39,190 --> 00:00:38,320

mr uh well looks like everything else is

17

00:00:41,030 --> 00:00:39,200

uh

18

00:00:43,350 --> 00:00:41,040

was cooperating except for a local area

19

00:00:45,110 --> 00:00:43,360

of weather

20

00:00:46,630 --> 00:00:45,120

yeah pete if we had 30 more minutes to

21

00:00:48,069 --> 00:00:46,640

go i think we'd have a real good shot

22

00:00:49,750 --> 00:00:48,079

today but uh it's obviously not the

23

00:00:51,990 --> 00:00:49,760

right thing to do today so

24

00:00:57,189 --> 00:00:52,000

we can knock it off yes sir we'll do

25

00:01:02,630 --> 00:00:59,430

discovery go ahead pete

26

00:01:04,469 --> 00:01:02,640

well cj uh vehicle and the operations

27

00:01:06,950 --> 00:01:04,479

were cooperating but the local weather

28

00:01:09,510 --> 00:01:06,960

unfortunately did not

29

00:01:10,390 --> 00:01:09,520

so we'll have to copy that

30

00:01:12,550 --> 00:01:10,400

sorry

31

00:01:15,350 --> 00:01:12,560

we'll have to scrub for the day but uh

32

00:01:17,190 --> 00:01:15,360

look to try again tomorrow

33

00:01:18,550 --> 00:01:17,200

we copy that sir and that will be ready

34

00:01:21,749 --> 00:01:18,560

uh when the weather is ready to

35

00:01:28,230 --> 00:01:21,759

cooperate we'll be uh ready to go

36

00:01:31,590 --> 00:01:30,310

an entity launch director

37

00:01:33,109 --> 00:01:31,600

go ahead sir

38

00:01:35,429 --> 00:01:33,119

okay uh

39

00:01:37,910 --> 00:01:35,439

like for you to set up we'll scrub for

40

00:01:39,670 --> 00:01:37,920

the day perform a 24 hour

41

00:01:41,350 --> 00:01:39,680

launch scrub turn around and try again

42

00:01:43,910 --> 00:01:41,360

tomorrow i believe the window open is

43

00:01:45,350 --> 00:01:43,920

0105 eastern
