launch director our launch team is ready

3  
00:00:09,110 --> 00:00:06,879  
to proceed okay cover that steve thank

4  
00:00:11,110 --> 00:00:09,120  
you i'll do my fault this time

5  
00:00:13,270 --> 00:00:11,120  
kc chief processing engineer verify no

6  
00:00:15,749 --> 00:00:13,280  
constraints to launch no constraints

7  
00:00:17,590 --> 00:00:15,759  
thank you steve payload launch manager

8  
00:00:19,590 --> 00:00:17,600  
mike the iss ground processing team is

9  
00:00:21,990 --> 00:00:19,600  
ready to go okay thanks bill appreciate

10  
00:00:23,590 --> 00:00:22,000  
that kc safety mission assurance casey

11  
00:00:25,509 --> 00:00:23,600  
safety mission ferris would go mike

12  
00:00:26,950 --> 00:00:25,519  
thank you mark range weather

13  
00:00:31,029 --> 00:00:26,960

weather is green on all constraints

14

00:00:32,630 --> 00:00:31,039

winds are from 335 degrees 18 18 25.

15

00:00:34,310 --> 00:00:32,640

okay thank you kathy

16

00:00:36,470 --> 00:00:34,320

and ops manager

17

00:00:37,910 --> 00:00:36,480

see mike uh mmp doesn't have any issues

18

00:00:39,990 --> 00:00:37,920

that we're tracking looks like a good

19

00:00:42,389 --> 00:00:40,000

day you are go to launch atlantic okay

20

00:00:45,670 --> 00:00:42,399

copy that

21

00:00:46,790 --> 00:00:45,680

tdr launch director

22

00:00:48,709 --> 00:00:46,800

go ahead

23

00:00:50,869 --> 00:00:48,719

okay charlie all the vehicle systems are

24

00:00:52,630 --> 00:00:50,879

outstanding today the weather is near

25

00:00:55,350 --> 00:00:52,640

perfect for a good lift off and flight

26

00:00:57,350 --> 00:00:55,360

today and our rss is retracted

27

00:00:59,189 --> 00:00:57,360

so on behalf of the kc processing and

28

00:01:00,709 --> 00:00:59,199

launch teams i wish you good luck

29

00:01:04,469 --> 00:01:00,719

godspeed we'll see you back here just

30

00:01:08,710 --> 00:01:06,390

thanks mike uh we really appreciate all

31

00:01:09,910 --> 00:01:08,720

the effort that's gone into making this

32

00:01:10,950 --> 00:01:09,920

uh

33

00:01:13,670 --> 00:01:10,960

watch

34

00:01:15,429 --> 00:01:13,680

attempt impossible we know uh there's

35

00:01:18,789 --> 00:01:15,439

been a lot of people working some really

36

00:01:21,109 --> 00:01:18,799

long hours on weekends and long days

37

00:01:22,550 --> 00:01:21,119

with all the vehicles that are out there

38

00:01:24,469 --> 00:01:22,560

we're excited to

39

00:01:26,070 --> 00:01:24,479

take this incredible vehicle for a ride

40

00:01:26,950 --> 00:01:26,080

and meet up with another incredible

41

00:01:28,789 --> 00:01:26,960

vehicle

42

00:01:30,550 --> 00:01:28,799

the international space station so with

43

00:01:32,710 --> 00:01:30,560

that thank you very much for all you've

44

00:01:35,749 --> 00:01:32,720

done and everybody across the country

45

00:01:37,190 --> 00:01:35,759

that's participated we're ready to go

46

00:01:38,789 --> 00:01:37,200

thank you very much scorch appreciate
