

1
00:00:04,560 --> 00:00:03,209
and we can see Charlie hobaugh coming to

2
00:00:06,749 --> 00:00:04,570
now this is Charlie hill balls and a

3
00:00:08,940 --> 00:00:06,759
squirt Marine Colonel who's the

4
00:00:11,009 --> 00:00:08,950
commander of this mission he's a help

5
00:00:12,120 --> 00:00:11,019
getting it suited up here by Travis

6
00:00:15,089 --> 00:00:12,130
Thompson who's number four on the

7
00:00:16,500 --> 00:00:15,099
closeout crew yeah we can see here as I

8
00:00:17,820 --> 00:00:16,510
talked about you can see that there's

9
00:00:19,980 --> 00:00:17,830
both guys in there happen that's Joe

10
00:00:21,359 --> 00:00:19,990
acaba has the has his hand on his head

11
00:00:23,070 --> 00:00:21,369
there and that's the astronaut that's in

12
00:00:24,210 --> 00:00:23,080
there you can kind of see Drew's leg on

13
00:00:25,710 --> 00:00:24,220

the bottom there he's gonna get up here

14

00:00:27,419 --> 00:00:25,720

and start helping Scorch get everything

15

00:00:28,740 --> 00:00:27,429

all settled okay we've got a couple of

16

00:00:29,999 --> 00:00:28,750

them lined up closer to the hatch there

17

00:00:31,230 --> 00:00:30,009

is Mike Foreman and he's gonna be the

18

00:00:32,850 --> 00:00:31,240

first guy into the mid-deck we kind of

19

00:00:34,680 --> 00:00:32,860

do a flight deck mid deck flight deck

20

00:00:36,390 --> 00:00:34,690

mid deck as we go through because

21

00:00:37,710 --> 00:00:36,400

obviously it's it's very difficult to

22

00:00:39,960 --> 00:00:37,720

get more than one person strapped in a

23

00:00:41,520 --> 00:00:39,970

time so next in line there you can see

24

00:00:43,710 --> 00:00:41,530

in the foreground is a butch wilmore

25

00:00:44,850 --> 00:00:43,720

butch is the pilot on the mission so as

26
00:00:46,800 --> 00:00:44,860
we said on the flight deck commander

27
00:00:48,060 --> 00:00:46,810
goes in first then the pilot so it'll be

28
00:00:49,380 --> 00:00:48,070
the next one in and he's just getting

29
00:00:50,670 --> 00:00:49,390
his harness put on there and you can see

30
00:00:51,780 --> 00:00:50,680
he's wrestling it around just to make

31
00:00:53,490 --> 00:00:51,790
sure it's all nice and snug and

32
00:00:54,690 --> 00:00:53,500
comfortable and making all the

33
00:00:58,590 --> 00:00:54,700
connections there and he'll be the next

34
00:00:59,970 --> 00:00:58,600
guy to go into the flight deck and in

35
00:01:01,110 --> 00:00:59,980
the white room as you can see there it

36
00:01:02,370 --> 00:01:01,120
is Bobby Satcher that came into the room

37
00:01:04,469 --> 00:01:02,380
there so he stand over on the right he's

38
00:01:06,150 --> 00:01:04,479

already got his harness on so they

39

00:01:08,460 --> 00:01:06,160
should be just about done with Scorch up

40

00:01:09,810 --> 00:01:08,470
on the flight deck in Butch will be

41

00:01:11,940 --> 00:01:09,820
going in here in just a second you can

42

00:01:13,140 --> 00:01:11,950
see him close to the hatch back on board

43

00:01:14,250 --> 00:01:13,150
the flight deck now you can see that we

44

00:01:15,720 --> 00:01:14,260
got Leland across in the mission

45

00:01:17,460 --> 00:01:15,730
specialist one seat and we got a great

46

00:01:19,350 --> 00:01:17,470
shot looking directly back from the

47

00:01:20,850 --> 00:01:19,360
front part here great view of the white

48

00:01:22,170 --> 00:01:20,860
room here the final crew member that

49

00:01:23,640 --> 00:01:22,180
goes on it's always mission specialist

50

00:01:25,110 --> 00:01:23,650
number two they always the last person

51
00:01:27,840 --> 00:01:25,120
on board they've got that Center seat on

52
00:01:30,149 --> 00:01:27,850
the flight deck is a Randy Bresnik and

53
00:01:31,200 --> 00:01:30,159
this is Randy's first flight he's a

54
00:01:32,790 --> 00:01:31,210
rookie on this flight he's doing a

55
00:01:34,200 --> 00:01:32,800
couple spacewalks he's also the

56
00:01:36,300 --> 00:01:34,210
intraocular crewmember on one of the

57
00:01:39,180 --> 00:01:36,310
spacewalks and doing some robotics work

58
00:01:41,130 --> 00:01:39,190
so this is his first trip into space so

59
00:01:43,020 --> 00:01:41,140
ms2 onboard that call from our Renee

60
00:01:45,240 --> 00:01:43,030
there is that the last room room one on

61
00:01:46,320 --> 00:01:45,250
board and I shot a Randy going on here

62
00:01:49,290 --> 00:01:46,330
and you can see why he's the last crew

63
00:01:50,760 --> 00:01:49,300

member in his his seat was Grand Central

64

00:01:52,740 --> 00:01:50,770

Station forgetting the other three in on
