

1

00:00:01,319 --> 00:00:06,080

In the predawn hours on November 10, 2007,  
the doors to the massive

2

00:00:06,080 --> 00:00:10,620

Vehicle Assembly Building opened to reveal  
space shuttle Atlantis.

3

00:00:10,620 --> 00:00:13,329

Resting on top of the mobile launch platform,

4

00:00:13,329 --> 00:00:15,530

the shuttle made its slow and steady

5

00:00:15,530 --> 00:00:21,230

3.4-mile journey over the crawlerway to reach  
Launch Pad 39A.

6

00:00:21,230 --> 00:00:27,199

The trip took about six-and-a-half hours,  
with first motion at 4:43 a.m.

7

00:00:27,199 --> 00:00:30,359

The shuttle stack, traveling at less than  
one mile an hour,

8

00:00:30,359 --> 00:00:34,210

was secured on the pad at 11:51 a.m.

9

00:00:34,210 --> 00:00:38,140

and is now poised for launch on mission STS-122

10

00:00:38,140 --> 00:00:40,510

to the International Space Station.
