

An aerial photograph of a space shuttle launch complex. In the center, a large circular paved area is visible, surrounded by green grass. A long, straight concrete road or ramp extends from the left towards the center. In the background, there are several large, low-rise buildings and a tall structure with multiple masts. The entire scene is overlaid with a large, semi-transparent American flag graphic, with the red and white stripes on the right and the blue field with stars on the bottom left.

SPACE SHUTTLE

1
00:00:01,828 --> 00:00:07,062

\h "We choose to go to the moon in this decade and do the other things, not because they are

2
00:00:07,062 --> 00:00:08,858

\h easy, but because they are hard.

3
00:00:08,858 --> 00:00:16,780

\h Because that goal will serve to organize and measure the best of our energies and skills, because that

4
00:00:16,780 --> 00:00:19,828

\h challenge is one that we're willing to accept,

5
00:00:19,828 --> 00:00:27,875

\h one we are unwilling to postpone and one we intend to win and the others too."

6
00:01:13,937 --> 00:01:19,671

\h "Contact light...Tranquility base here, the Eagle has landed."

7
00:01:19,671 --> 00:01:26,468

\h "That's one small step for man, one giant leap for mankind."

8
00:01:55,046 --> 00:02:04,921

\h "Nine, eight, seven, six, green board, five, four, three, two, one, engine start and liftoff of

9
00:02:04,921 --> 00:02:11,718

\h the Delta two rocket carrying the Spirit from Earth to planet Mars."

10
00:02:27,046 --> 00:02:32,953

\h "The space program in general and the Shuttle Program in particular gone a long way to

11
00:02:32,953 --> 00:02:36,233

\h help our country to recapture its spirit of vitality and confidence.

12
00:02:36,233 --> 00:02:41,671

\h The pioneer spirit still flourishes in America."

13
00:02:41,671 --> 00:02:47,766

\h "In the future as in the past, our freedom, independence and national well-being will be

14

00:02:47,766 --> 00:02:54,171

\h tied to new achievements, new discoveries and pushing back new frontiers.

15

00:02:54,171 --> 00:03:00,000

\h We must look aggressively to the future by demonstrating the potential of the shuttle and

16

00:03:00,000 --> 00:03:06,625

\h establishing a more permanent presence in space."

17

00:03:10,108 --> 00:03:17,328

\h "Mankind is drawn to the heavens for the same reason we were once drawn into

18

00:03:17,328 --> 00:03:23,328

\h unknown lands and across the open sea.
