

An American Treasure: The Space Shuttle

1
00:00:05,480 --> 00:00:03,020
hi I'm JP Compton in the constellation

2
00:00:09,020 --> 00:00:05,490
program office working the solid rocket

3
00:00:10,669 --> 00:00:09,030
processing element I've been with the

4
00:00:12,410 --> 00:00:10,679
shuttle program where I was with the

5
00:00:15,740 --> 00:00:12,420
shuttle program in the original program

6
00:00:19,720 --> 00:00:15,750
office with the Air Force back for STS

7
00:00:21,890 --> 00:00:19,730
one up through sts9 I think my favorite

8
00:00:23,870 --> 00:00:21,900
memory of the shuttle was when we were

9
00:00:26,960 --> 00:00:23,880
doing the sonic boom measurement test

10
00:00:29,480 --> 00:00:26,970
out off the east coast of Florida and we

11
00:00:31,250 --> 00:00:29,490
were raining 85-foot Hatteras fishing

12
00:00:33,080 --> 00:00:31,260
boats and going out and sitting out for

13
00:00:34,610 --> 00:00:33,090

three days waiting for the shuttle

14

00:00:37,069 --> 00:00:34,620

launch and measuring the sonic boom
