

1
00:00:04,430 --> 00:00:02,210
my name is Randy minor and I work for

2
00:00:08,390 --> 00:00:04,440
the Mod Squad in the 0 PS we do all the

3
00:00:11,749 --> 00:00:08,400
tubing mods anything has to do with the

4
00:00:14,720 --> 00:00:11,759
fluids or gases tubing yes I've been

5
00:00:18,529 --> 00:00:14,730
here since the very beginning sts-1 as

6
00:00:21,710 --> 00:00:18,539
hired 1978 and of course biggest thrill

7
00:00:22,910 --> 00:00:21,720
was watching sts-1 launch because we

8
00:00:25,640 --> 00:00:22,920
never knew if it was going to get off

9
00:00:29,300 --> 00:00:25,650
the ground and it sure did get off the

10
00:00:32,590 --> 00:00:29,310
ground well yell memories and leave a

11
00:00:35,479 --> 00:00:32,600
lasting memory and hopefully as our

12
00:00:39,200 --> 00:00:35,489
names will be on the blocks for years to

13
00:00:40,850 --> 00:00:39,210

come and maybe generations well wasn't a

14

00:00:43,610 --> 00:00:40,860

you know they have the blocks already

15

00:00:45,770 --> 00:00:43,620

there where he signed so it was a big

16

00:00:48,740 --> 00:00:45,780

decision but I am a third third

17

00:00:51,500 --> 00:00:48,750

generation space worker so hopefully

18

00:00:54,470 --> 00:00:51,510

there will be generations past us can

19

00:00:56,979 --> 00:00:54,480

have the memories too oh sure it was as

20

00:01:00,470 --> 00:00:56,989

long as somebody main maintains it

21

00:01:02,209 --> 00:01:00,480

something has become in the years to
