

EXIT

Endeavour
STS-134

1
00:00:06,730 --> 00:00:03,850
and here is commander Mark Kelly r134

2
00:00:10,090 --> 00:00:06,740
mission commander making his for flight

3
00:00:12,550 --> 00:00:10,100
on the space shuttle he's logged a total

4
00:00:20,609 --> 00:00:12,560
of 38 days in space

5
00:00:26,880 --> 00:00:23,859
going over to our pilot now Greg Johnson

6
00:00:33,360 --> 00:00:26,890
he's making his second spaceflight

7
00:00:37,209 --> 00:00:33,370
previously also piled on sts-123 in 2008

8
00:00:41,950 --> 00:00:37,219
he's logged over 4,000 hours in 40

9
00:00:43,689 --> 00:00:41,960
different type of aircraft this is Mike

10
00:00:46,720 --> 00:00:43,699
Fincke mission specialist number one

11
00:00:48,639 --> 00:00:46,730
this is his third spaceflight but his

12
00:00:51,490 --> 00:00:48,649
first space shuttle flight he was

13
00:00:54,610 --> 00:00:51,500

launched previously from Russia on Soyuz

14

00:00:56,919 --> 00:00:54,620
spacecraft and he's locked 365 days in

15

00:01:00,939 --> 00:00:56,929
space with over 26 hours on six

16

00:01:06,670 --> 00:01:00,949
spacewalks mission specialist grape

17

00:01:12,110 --> 00:01:09,890
this is his second spaceflight but he's

18

00:01:17,270 --> 00:01:12,120
already logged 183 days in space aboard

19

00:01:20,870 --> 00:01:17,280
the space station he's Canadian born

20

00:01:23,120 --> 00:01:20,880
from Montreal and there's drew Feustel

21

00:01:31,060 --> 00:01:23,130
mission specialist number three making

22

00:01:33,380 --> 00:01:31,070
his second trip into space he served as

23

00:01:35,090 --> 00:01:33,390
an astronaut for more than a decade of

24

00:01:39,560 --> 00:01:35,100
working on both the space shuttle and

25

00:01:41,420 --> 00:01:39,570
the space station branches in Houston he

26

00:01:54,929 --> 00:01:41,430

flew on the fifth and final HST

27

00:01:59,910 --> 00:01:58,260

he's mission specialist number two he

28

00:02:01,319 --> 00:01:59,920

was selected as an astronaut by the

29

00:02:04,260 --> 00:02:01,329

European Space Agency

30

00:02:06,919 --> 00:02:04,270

he's from Viterbo Italy and he has flown

31

00:02:10,740 --> 00:02:06,929

to the International Space Station twice

32

00:02:14,009 --> 00:02:10,750

and here come our astronauts leaving the

33

00:02:16,979 --> 00:02:14,019

suit-up room bound for the elevator they

34

00:02:25,390 --> 00:02:16,989

will take them down to the astronaut fan

35

00:02:30,039 --> 00:02:27,789

this is the same elevator that all

36

00:02:31,869 --> 00:02:30,049

astronauts since Apollo have used to

37

00:03:45,390 --> 00:02:31,879

leave the crew quarters and go out to

38

00:03:52,470 --> 00:03:47,759

may allow another ten minutes or so for

39

00:03:54,869 --> 00:03:52,480

the crew to get off the Astro van and

40

00:03:58,559 --> 00:03:54,879

look around a little bit and head up the

41

00:04:02,309 --> 00:03:58,569

fixed service structure and and begin

42

00:04:04,619 --> 00:04:02,319

boarding the space shuttle so that

43

00:04:06,869 --> 00:04:04,629

allows for about a half an hour for the

44

00:04:09,569 --> 00:04:06,879

entire process from the time they leave
