

HD

1
00:00:01,380 --> 00:00:10,230

ULA Telemetry officer Rob Gagnon: Five seconds to spacecraft sep. We achieved our targeted roll rate.

2
00:00:10,230 --> 00:00:15,020

We have spacecraft separation. (Cheers, clapping)

3
00:00:15,020 --> 00:00:22,560

And confirmation from our video system.

4
00:00:22,560 --> 00:00:30,860

And the vehicle has de-spun.

5
00:00:30,860 --> 00:00:40,310

And with the successful separation of the MSL spacecraft from AV-28, this concludes the commentary for this mission.
