

1
00:00:02,660 --> 00:00:08,280

Narrator: NASA's Commercial Crew Program Manager Ed Mango and Florida's Lieutenant Governor Jennifer C

2
00:00:08,280 --> 00:00:14,840

took center stage at the National Space Club Florida Committee's luncheon on Aug. 14 as they talked about th

3
00:00:14,840 --> 00:00:20,460

future of human spaceflight with about 350 club members and guests.

4
00:00:20,460 --> 00:00:24,960

Ed Mango/Commercial Crew Program Manager: In 1927, where Lindbergh flew the first mission across the oce

5
00:00:24,960 --> 00:00:32,220

in the next four or five years, these companies along with NASA, the industry along with the United States,

6
00:00:32,220 --> 00:00:38,180

will create and be on the threshold of creating many more Lindberg moments. What did Lindbergh do?

7
00:00:38,180 --> 00:00:46,460

He made the world a smaller place. What did the Glenn and Apollo 8 and the shuttle do? They made the heave

8
00:00:46,460 --> 00:00:51,870

smaller place. Commercial Crew is going to continue that effort to make the world

9
00:00:51,870 --> 00:00:54,310

and the heavens a smaller place.

10
00:00:54,310 --> 00:00:57,300

Narrator: Under the agency's newest commercial space initiative,

11
00:00:57,300 --> 00:01:02,120

called the Commercial Crew Integrated Capability, or CCIcap,

12
00:01:02,120 --> 00:01:09,520

The Boeing Company, Space Exploration Technologies (SpaceX) and Sierra Nevada Corp. (SNC) will spend th

13
00:01:09,520 --> 00:01:14,900

year and a half bringing their spacecraft and launch vehicles closer to providing safe,

14

00:01:14,900 --> 00:01:19,490

affordable and reliable access to low Earth orbit.

15

00:01:19,490 --> 00:01:25,240

Lt. Gov. Jennifer Carroll: The community, the state, the workforce and our nation will greatly benefit from the

16

00:01:25,240 --> 00:01:32,190

works that come out of many of you that's in the room today and the industries that are creating the next
