Music

2  
00:00:02,910 --> 00:00:06,010

Narrator: NASA Administrator Charlie Bolden visited the agency's

3  
00:00:06,010 --> 00:00:11,140

Dryden Flight Research Center May 22, where he flew approach-and-landing

4  
00:00:11,140 --> 00:00:16,720

simulations of Sierra Nevada Corporation's Dream Chaser spacecraft.

5  
00:00:16,720 --> 00:00:20,480

A test vehicle of the company's spacecraft recently arrived at Dryden

6  
00:00:20,480 --> 00:00:27,360

for a series of tests, culminating with a free-flight demonstration later this year.

7  
00:00:27,360 --> 00:00:28,740

NASA Administrator Charlie Bolden: Ultimately,

8  
00:00:28,740 --> 00:00:33,050

it's going to be commercial capability getting us to low-Earth orbit.

9  
00:00:33,050 --> 00:00:39,000

That is the way we're going to gain access to space and low-Earth orbit.

10  
00:00:39,000 --> 00:00:43,600

Narrator: Sierra Nevada Corporation is working with NASA's Commercial Crew Program
