

1  
00:00:19,770 --> 00:00:22,090

\h George Diller/IRIS Launch Commentator: This is Pegasus Launch Control,

2  
00:00:22,090 --> 00:00:31,760

\h this is the F-18 chase plane on the takeoff roll.

3  
00:00:31,760 --> 00:00:54,880

\h Should be getting video from that very shortly after airborne.

4  
00:00:54,880 --> 00:00:59,420

\h And the chase plane is in the air so we should be getting some video

5  
00:00:59,420 --> 00:01:04,770

\h back to the ground of the L-1011 on the runway very shortly.

6  
00:01:04,770 --> 00:01:13,380

\h Live video again from the F-18 chase plane.

7  
00:01:13,380 --> 00:01:18,160

\h Now just two minutes away from the departure of the L-1011 with the

8  
00:01:18,160 --> 00:01:47,840

\h Pegasus rocket carrying NASAs' IRIS observatory.
