

Kennedy Space Center's

# SPACEPORT

MAGAZINE

1

00:00:00,000 --> 00:00:04,660

Hey, I'm NASA Kennedy's Annie Caraccio , taking you Inside KSC!

2

00:00:07,000 --> 00:00:11,620

Orion's launch abort system is now atop the spacecraft. While the tower will not be

3

00:00:11,629 --> 00:00:15,490

fully-operational on Orion's uncrewed December flight test,

4

00:00:15,490 --> 00:00:18,970

it will provide astronauts setting off on a deep space mission

5

00:00:18,970 --> 00:00:21,470

a safe escape in the unlikely event of an aborted launch.

6

00:00:22,760 --> 00:00:27,390

Keeping the International Space Station crew breathing well has a certain Kennedy "air"

7

00:00:27,390 --> 00:00:31,500

about it. At KSC's Space Station Processing Facility,

8

00:00:31,500 --> 00:00:33,800

high-pressure tanks are filled with oxygen and

9

00:00:33,800 --> 00:00:39,230

nitrogen crucial to the station's atmosphere. The first of these tanks is headed to the

10

00:00:39,230 --> 00:00:43,180

ISS aboard the Cygnus spacecraft on Orbital Science's third

11

00:00:43,180 --> 00:00:44,840  
cargo resupply mission.
