

Kennedy Space Center's

SPACEPORT MAGAZINE

1
00:00:00,560 --> 00:00:05,320

Hey, I'm NASA Kennedy's Joshua Santora, taking you Inside KSC!

2
00:00:07,779 --> 00:00:11,790

Workers at Kennedy are deep into modifying the mobile launcher for NASA's massive

3
00:00:11,790 --> 00:00:14,430

Space Launch System rocket.

4
00:00:14,430 --> 00:00:19,810

In a class with the Apollo/Saturn V, the SLS will propel the Orion spacecraft and its crew

5
00:00:19,810 --> 00:00:25,210

to Mars and other deep space destinations.

6
00:00:25,210 --> 00:00:29,800

Two of the four spacecraft on next year's Magnetosphere Multiscale mission are now at

7
00:00:29,800 --> 00:00:34,620

nearby Astrotech to begin processing by Kennedy's Launch Services Program team.

8
00:00:34,620 --> 00:00:39,450

Once configured inside their rocket, the four MMS spacecraft will undergo numerous

9
00:00:39,450 --> 00:00:43,510

tests before they're sent into space to research the magnetic fields around

10
00:00:43,510 --> 00:00:45,610

Earth and the sun.
