

Orion's Glimpse of the Future

1  
00:00:00,429 --> 00:00:03,010  
Hey, I'm NASA Kennedy's Margaret Truitt.

2  
00:00:03,010 --> 00:00:06,419  
Here are 2014's top stories Inside KSC!

3  
00:00:06,419 --> 00:00:10,840  
2014 was a pivotal year in the evolution of the Kennedy Space Center.

4  
00:00:10,840 --> 00:00:16,209  
The Orion spacecraft lifted off from KSC Dec. 5 on a spectacular mission that gave us a

5  
00:00:16,209 --> 00:00:19,060  
glimpse of NASA's journey to Mars.

6  
00:00:19,060 --> 00:00:23,619  
The Commercial Crew Program in September chose the next generation of spacecraft that will

7  
00:00:23,619 --> 00:00:28,410  
carry astronauts to the International Space Station from American soil – right here

8  
00:00:28,410 --> 00:00:30,800  
from Florida's Space Coast.

9  
00:00:30,800 --> 00:00:36,430  
Our Launch Services Program sent two new tools into Earth's orbit: NASA's TDRS-L satellite

10  
00:00:36,430 --> 00:00:41,570  
will improve communications in space, and the Orbiting Carbon Observatory 2 will provide

11  
00:00:41,570 --> 00:00:44,950  
researchers with new details about our atmosphere.

12  
00:00:44,950 --> 00:00:50,460  
All of this took place as the nation's premiere  
launch site continued its transformation to

13  
00:00:50,460 --> 00:00:53,270  
the multi-user spaceport of the future.
