

1

00:00:00,539 --> 00:00:05,799

Hi I'm astronaut Suni Williams. I've had the opportunity to launch to space from both the Kennedy Space

2

00:00:05,799 --> 00:00:09,380

Center and Baikonur Cosmodrome in Kazakstan.

3

00:00:09,380 --> 00:00:12,769

I'm really excited about the Commercial Crew Program because we'll be launching again from

4

00:00:12,769 --> 00:00:17,649

the Kennedy Space Center so that people here in the United States will have the opportunity

5

00:00:17,649 --> 00:00:21,520

and appreciation for what we're doing on the International Space Station.

6

00:00:21,520 --> 00:00:26,180

The International Space Station is a one-of-a-kind platform for scientific research where we

7

00:00:26,180 --> 00:00:29,070

work off the Earth, for the Earth.

8

00:00:29,070 --> 00:00:33,450

NASA's Commercial Crew Program is a new way to get to the station and it enables us to

9

00:00:33,450 --> 00:00:38,950

add another crew member which will effectively double the science we can conduct in space.

10

00:00:38,950 --> 00:00:42,940

NASA's Commercial Crew Program means future astronauts will launch to the International

11

00:00:42,940 --> 00:00:45,950

Space Station from the United States.
