EARTH RIGHT

1

00:00:00,200 --> 00:00:04,020

Hey, I'm NASA Kennedy's Amanda Griffin, taking you Inside KSC!

2

00:00:06,820 --> 00:00:09,360

Preparations for the next launch are in full swing!

3

00:00:09,360 --> 00:00:12,460

The United Launch Alliance Atlas V is

4

00:00:12,460 --> 00:00:16,180

taking shape at Cape Canaveral Air Force Station's Space Launch Complex-41 ahead

5

00:00:16,180 --> 00:00:19,330

of the March 12 liftoff of the MMS mission.

6

00:00:19,330 --> 00:00:23,039

Four spacecraft will make up the research flight into magnetic field behaviors of Earth

7

00:00:23,039 --> 00:00:24,300

and the sun.

8

00:00:24,300 --> 00:00:27,160

They are moving ahead on pace at the Astrotech facility.

9

00:00:28,740 --> 00:00:33,260

The crawler-transporters turned 50 years old. To mark the birthday, the second of the

10

00:00:33,260 --> 00:00:37,340

massive rocket movers rolled at its stately pace of 1 mile per hour from the Vehicle

11

00:00:37,340 --> 00:00:40,670

Assembly Building to Launch Pad 39B.

12

00:00:40,670 --> 00:00:45,170

The move allowed engineers to evaluate modifications just completed on the crawler to
