

First Platform Arrives for SLS-Orion

1

00:00:00,320 --> 00:00:07,320

Hey, I'm NASA Kennedy's Kyle Mallory, and I'm taking you Inside KSC!

2

00:00:07,520 --> 00:00:12,950

Nine thundering engines blazed a bright trail into space Tuesday to mark Kennedy's third

3

00:00:12,950 --> 00:00:14,709

launch of the year.

4

00:00:14,709 --> 00:00:17,929

"...and liftoff! The Falcon soars..."

5

00:00:17,929 --> 00:00:24,330

A SpaceX Falcon 9 and Dragon spacecraft left Earth carrying more than two tons of experiments,

6

00:00:24,330 --> 00:00:29,349

equipment and supplies to the International Space Station.

7

00:00:29,349 --> 00:00:33,989

The first of a new set of platforms for the Vehicle Assembly Building arrived at Kennedy

8

00:00:33,989 --> 00:00:40,210

on April 10. The giant structure will be raised into High Bay 3 to provide access to the core

9

00:00:40,210 --> 00:00:43,770

and booster stages of the Space Launch System rocket.

10

00:00:43,770 --> 00:00:48,899

It will take 20 such pieces to complete the platform network needed for SLS and Orion

11

00:00:48,899 --> 00:00:51,920

assembly and processing in the VAB.
