

1
00:00:12,350 --> 00:00:09,710
Hi, I'm Margaret Webb and I'm

2
00:00:15,560 --> 00:00:12,360
Morales, and we're here to talk about

3
00:00:17,570 --> 00:00:15,570
the future, ours and yours, at

4
00:00:19,970 --> 00:00:17,580
NASA. In the future, asteroids are expected to travel,

5
00:00:21,560 --> 00:00:19,980
inhabit the planet Mars, and

6
00:00:24,679 --> 00:00:21,570
sustain human activities throughout

7
00:00:27,620 --> 00:00:24,689
the solar system, and to fulfill these

8
00:00:31,670 --> 00:00:27,630
spectacular missions we use something

9
00:00:34,310 --> 00:00:31,680
you use every day the robot we create

10
00:00:36,530 --> 00:00:34,320
when we say it's awesome to go to

11
00:00:38,450 --> 00:00:36,540
work here at nasa and see some

12
00:00:40,360 --> 00:00:38,460
of the groundbreaking work being done

13
00:00:44,189 --> 00:00:40,370

by robots

14
00:00:46,990 --> 00:00:44,199
and that's where your future comes into play

15
00:00:48,939 --> 00:00:47,000
you don't have to be a scientist From

16
00:00:51,069 --> 00:00:48,949
rockets to building and working with

17
00:00:53,290 --> 00:00:51,079
robots there are students of all

18
00:00:56,360 --> 00:00:53,300
ages from all over the country playing,

19
00:00:59,450 --> 00:00:56,370
competing and working with robots

20
00:01:02,180 --> 00:00:59,460
however you would like to work with robots I would

21
00:01:04,910 --> 00:01:02,190
definitely do it and how about

22
00:01:07,399 --> 00:01:04,920
exploring the edge of the universe with

23
00:01:11,050 --> 00:01:07,409
programming and manipulating your

24
00:01:14,090 --> 00:01:11,060
own robot now that's great

25
00:01:16,370 --> 00:01:14,100
getting a solid understanding of

26
00:01:18,890 --> 00:01:16,380
science technology engineering or

27
00:01:21,710 --> 00:01:18,900
math gives you the tools to

28
00:01:25,060 --> 00:01:21,720
let your imagination run wild and change the

29
00:01:26,899 --> 00:01:25,070
world or maybe the universe

30
00:01:29,480 --> 00:01:26,909
regardless if you decide you

31
00:01:32,020 --> 00:01:29,490
want to work with robots there are

32
00:01:35,090 --> 00:01:32,030
numerous adventures waiting for you

33
00:01:38,390 --> 00:01:35,100
work hard and give it all you have

34
00:01:40,610 --> 00:01:38,400
maybe one day we'll see each other here or

35
00:01:43,900 --> 00:01:40,620
out there

36
00:01:46,310 --> 00:01:43,910
so what's in the future for you

37
00:01:48,410 --> 00:01:46,320
i asked your school about forsur

38
00:01:52,010 --> 00:01:48,420

bars and other opportunities available

39

00:01:54,670 --> 00:01:52,020

to you and for now no tony tate to

40

00:01:56,990 --> 00:01:54,680

watch the nazis robots mining competition

41

00:02:01,030 --> 00:01:57,000

by checking us out on facebook for

42

00:02:04,520 --> 00:02:01,040

live coverage may 20-22

43

00:02:07,610 --> 00:02:04,530

and remember your future is what you make of

44

00:02:10,070 --> 00:02:07,620

it the possibilities are endless this
