

1

00:00:00,170 --> 00:00:05,690

Hi I'm Kurt Leucht of Kennedy Space Center.  
Let's go inside KSC.

2

00:00:05,690 --> 00:00:12,660

A big congratulations this week to Kennedy  
director Bob Cabana, whose career as an astronaut

3

00:00:12,670 --> 00:00:16,590

and center director earned him the National  
Space Trophy for 2015.

4

00:00:16,590 --> 00:00:22,660

I think it's truly outstanding, I was telling  
Alan: How can you not be proud to be part

5

00:00:22,660 --> 00:00:28,040

of this team and be amazed when you hear what  
it is we're doing on a daily basis? It's truly phenomenal.

6

00:00:29,730 --> 00:00:34,649

The ground test article of Orion's heat shield  
was airlifted from Kennedy recently to Denver

7

00:00:34,649 --> 00:00:36,209

where Lockheed Martin is based.

8

00:00:36,720 --> 00:00:41,120

The unflown heat shield was used at Kennedy  
to evaluate assembly and handling techniques.

9

00:00:42,549 --> 00:00:47,440

Check out NASA's newly redesigned Web site.  
Built for the general public with an emphasis

10

00:00:47,440 --> 00:00:52,530

on mobile device usage, the site offers updates  
and archives of the agency's work.
