

1
00:00:00,459 --> 00:00:03,010
Hey I'm NASA Kennedy's Jessica Conner.

2
00:00:03,010 --> 00:00:06,010
Taking you Inside KSC!

3
00:00:08,840 --> 00:00:13,340
An umbilical arm designed by Kennedy engineers
and destined for use

4
00:00:13,340 --> 00:00:14,900
supporting Space Launch System

5
00:00:14,910 --> 00:00:19,560
liftoffs recently was tested at its construction
yard off-center.

6
00:00:19,560 --> 00:00:24,560
It will be connected in the future to the
240-foot level of the Mobile Launcher

7
00:00:24,560 --> 00:00:30,380
where the arm will reach out to the Interim
Cryogenic Propulsive Stage.

8
00:00:30,380 --> 00:00:35,300
The Extreme Access Flyer project is moving
steadily up the technology

9
00:00:35,300 --> 00:00:37,200
readiness level scale

10
00:00:37,219 --> 00:00:43,820
as Swamp Works engineers refine prototypes
in their Kennedy lab.

11
00:00:43,820 --> 00:00:47,730
The Flyer is being developed to aid planetary
surface

12

00:00:47,730 --> 00:00:54,270

and asteroid exploration by sampling from
areas the rover can't reach.
