

1
00:00:05,780 --> 00:00:04,070
throughout history people have created a

2
00:00:07,820 --> 00:00:05,790
lot of things but now and again

3
00:00:10,160 --> 00:00:07,830
something is created that in itself is

4
00:00:13,129 --> 00:00:10,170
great but what it enables is truly

5
00:00:14,690 --> 00:00:13,139
extraordinary at rocket lab for the last

6
00:00:17,000 --> 00:00:14,700
eight years we have been known for the

7
00:00:18,650 --> 00:00:17,010
innovative technology that we create but

8
00:00:20,090 --> 00:00:18,660
whichever piece of technology the look

9
00:00:23,029 --> 00:00:20,100
at that was created here there was

10
00:00:24,560 --> 00:00:23,039
always a rocket lab person behind it we

11
00:00:26,150 --> 00:00:24,570
thought it was about time that you got

12
00:00:27,170 --> 00:00:26,160
to know the team who are dedicated to

13
00:00:40,180 --> 00:00:27,180

making it happen

14

00:00:40,190 --> 00:00:48,350

about it

15

00:00:48,360 --> 00:00:54,910

we tested

16

00:00:54,920 --> 00:01:00,549

and who flies

17

00:01:00,559 --> 00:01:09,719

so this is us

18

00:01:13,950 --> 00:01:12,120

and then there's you using space to

19

00:01:16,080 --> 00:01:13,960

provide technologies to improve life on

20

00:01:17,310 --> 00:01:16,090

our planet and beyond you've met the

21

00:01:19,859 --> 00:01:17,320

team here at rocket lab building
