

1

00:00:00,000 --> 00:00:04,370

Hey, I'm NASA Kennedy's Jennifer Horner taking you Inside KSC.

2

00:00:04,370 --> 00:00:11,620

The sixth platform segment of 20 arrived at Kennedy this week in preparation for eventually

3

00:00:11,620 --> 00:00:16,619

outfitting the landmark Vehicle Assembly Building for the Space Launch System rocket and Orion

4

00:00:16,619 --> 00:00:18,160

spacecraft stack.

5

00:00:18,160 --> 00:00:22,560

The platform is part of a network of internal structures designed for the stacking and processing

6

00:00:22,560 --> 00:00:27,099

needs of the next-generation launch vehicle that will take astronauts to deep space and

7

00:00:27,099 --> 00:00:29,140

eventually to Mars.

8

00:00:29,140 --> 00:00:33,290

The SAGE III instrument is at Kennedy now to begin final processing for launch next

9

00:00:33,290 --> 00:00:34,870

year to the station.

10

00:00:34,870 --> 00:00:38,710

The device will be mounted to the outside of the station where it can monitor aerosols

11

00:00:38,710 --> 00:00:43,420

and gases in Earth's atmosphere and gauge

the ozone layer.
