

KENNEDY SPACE CENTER'S

SPACEPORT

magazine

A horizontal row of social media icons. From left to right: Facebook (blue square with white 'f'), Flickr (white square with blue and pink circles and the word 'flickr'), Google+ (red square with white 'g+'), Music (blue circle with white musical note), RSS (orange square with white signal symbol), Twitter (blue square with white bird), Ustream (blue square with white 'USTREAM'), and YouTube (white square with red 'You' and black 'Tube').

SP...E...L...

1

00:00:00,789 --> 00:00:06,909

Hi! I'm NASA Kennedy's Stephanie Martin, and I'm taking you Inside KSC!

2

00:00:07,990 --> 00:00:12,660

The next U.S. cargo shipment to the International Space Station is taking shape inside Kennedy's

3

00:00:12,660 --> 00:00:18,660

Space Station Processing Facility. The unpiloted Cygnus spacecraft, built by Orbital ATK, is

4

00:00:18,660 --> 00:00:22,430

coming together following the attachment of the pressurized cargo module to the service

5

00:00:22,430 --> 00:00:23,950

module.

6

00:00:23,950 --> 00:00:30,590

The spacecraft is slated to launch in March atop a United Launch Alliance Atlas V.

7

00:00:30,590 --> 00:00:34,860

NASCAR driver Carl Edwards stopped by Kennedy about a week before racing in the Daytona

8

00:00:34,860 --> 00:00:40,960

500. He put his driving skills to the test in a Mine-resistant Ambush-protected vehicle,

9

00:00:40,960 --> 00:00:45,980

or MRAP, designed to help astronauts evacuate the launch pad in an emergency.

10

00:00:45,980 --> 00:00:50,890

He also took a behind-the-scenes tour of the spaceport's massive Vehicle Assembly Building

11

00:00:50,890 --> 00:00:55,829
and historic Launch Pad 39B, future launch
site of the Space Launch System heavy-lift

12
00:00:55,829 --> 00:00:58,030
rocket.
