

1

00:00:00,000 --> 00:00:06,945

Hey I'm NASA Kennedy's Dan Hull taking you
Inside KSC.

2

00:00:06,945 --> 00:00:11,594

Another work platform has arrived at NASA's
Kennedy Space Center in Florida as the mammoth

3

00:00:11,594 --> 00:00:16,135

Vehicle Assembly Building is prepared to provide
access for testing and processing for the

4

00:00:16,135 --> 00:00:18,055

Space Launch System rocket.

5

00:00:18,055 --> 00:00:22,955

The Ground Systems Development and Operations
Program is overseeing upgrades and modifications

6

00:00:22,955 --> 00:00:28,355

to support the SLS and Orion spacecraft which
eventually will launch astronauts on the journey

7

00:00:28,355 --> 00:00:29,674

to Mars.

8

00:00:29,674 --> 00:00:34,815

To keep supplies coming to crews aboard the
International Space Station, an Orbital ATK

9

00:00:34,815 --> 00:00:37,565

Cygnus spacecraft has been loaded with equipment.

10

00:00:37,565 --> 00:00:41,945

Members of the news media recently were given
an opportunity to visit the spaceport's

11

00:00:41,945 --> 00:00:46,405

Payload Hazardous Servicing Facility where

Cygnus is being processed and talk to those

12

00:00:46,405 --> 00:00:47,875

preparing the spacecraft.

13

00:00:47,875 --> 00:00:53,725

The Orbital ATK CRS-6 mission is scheduled to liftoff from Cape Canaveral Air Force Station

14

00:00:53,725 --> 00:00:58,435

on March 22 atop a United Launch Alliance Atlas V rocket.
