

1  
00:00:00,160 --> 00:00:02,400  
Hey I'm NASA Kennedy's Kyle Mallory

2  
00:00:02,430 --> 00:00:04,180  
taking you Inside KSC.

3  
00:00:06,940 --> 00:00:10,039  
It's May Madness as dozens of collegiate teams  
converged

4  
00:00:10,039 --> 00:00:12,559  
on the Kennedy Space Center Visitor Complex

5  
00:00:12,559 --> 00:00:14,070  
to compete in the seventh annual

6  
00:00:14,070 --> 00:00:17,000  
NASA Robotic Mining Competition.

7  
00:00:17,000 --> 00:00:21,420  
These students designed and built mining robots  
that can travel over a simulated

8  
00:00:21,420 --> 00:00:26,470  
Martian surface and excavate regolith, also  
known as Mars dirt.

9  
00:00:26,470 --> 00:00:29,760  
They then deposited as much as they could  
into a bin,

10  
00:00:29,760 --> 00:00:32,219  
all within 10 minutes.

11  
00:00:32,219 --> 00:00:37,280  
Space veterans Brian Duffy and Scott Parazynski  
were welcomed into the U.S.

12

00:00:37,280 --> 00:00:39,780

Astronaut Hall of Fame during a ceremony at the

13

00:00:39,780 --> 00:00:43,960

Kennedy Space Center Visitor Complex on May 14.

14

00:00:43,960 --> 00:00:48,149

Duffy logged more than 40 days in space during his four spaceflights while

15

00:00:48,149 --> 00:00:50,839

Parazynski flew on five spaceflights,

16

00:00:50,839 --> 00:00:54,659

including STS-95 with fellow astronaut hall of famer

17

00:00:54,659 --> 00:00:55,960

John Glenn.

18

00:00:55,960 --> 00:01:00,809

Parazynski also performed seven spacewalks during his career.
