

1  
00:09:28,870 --> 00:09:31,190

Martha Chaffee

It really touched my heart and especially

2  
00:09:31,190 --> 00:09:37,460

when they had parts of the vehicles and I thought, 'wouldn't it be nice if they could

3  
00:09:37,460 --> 00:09:45,070

have parts of the Apollo 1 spacecraft which they were miraculously able to do and I think

4  
00:09:45,070 --> 00:09:53,660

seeing that and then seeing redesign, which was so much different it made me feel good

5  
00:09:53,660 --> 00:10:06,400

that they lost their lives but it prevented others from losing theirs.

6  
00:10:06,400 --> 00:10:14,850

I like the presentation of the men and showing their lives other than just being an astronaut.

7  
00:10:14,850 --> 00:10:26,570

They were fathers, they were husbands . . . you get to feel who they were.

8  
00:10:26,570 --> 00:10:38,029

I think there's always hope and even the sacrifices that some make that will benefit others and

9  
00:10:38,029 --> 00:10:43,410

to fix it and get on with it and that's what NASA's been doing.

10  
00:10:43,410 --> 00:10:51,779

Sheryl Chaffee:

Kelvin approached me and told me that somebody

11  
00:10:51,779 --> 00:10:56,660  
had approached him and said why don't they  
have an Apollo 1 memorial like they have for

12  
00:10:56,660 --> 00:11:02,160  
challenger and Columbia and they took the  
ball and started running with it.

13  
00:11:02,160 --> 00:11:12,770  
It's amazing what they got done in a manner  
of just a few months.

14  
00:11:12,770 --> 00:11:19,451  
I think it's important to get to know these  
men as human beings, as family members and

15  
00:11:19,451 --> 00:11:29,120  
as husbands and fathers and not just astronauts.
