1
00:00:07,340 --> 00:00:02,629
hello I'm NASA Kennedy's Greg Clements

2
00:00:09,950 --> 00:00:07,350
taking you inside for this new ideas

3
00:00:11,839 --> 00:00:09,960
were flowing at the KSC kickstart this

4
00:00:13,730 --> 00:00:11,849
is an annual competition that gives

5
00:00:15,919 --> 00:00:13,740
employees the chance to offer up their

6
00:00:18,529 --> 00:00:15,929
innovative proposals to be analyzed by a

7
00:00:19,910 --> 00:00:18,539
panel of senior leaders judges

8
00:00:22,670 --> 00:00:19,920
considered criteria such as

9
00:00:24,650 --> 00:00:22,680
innovativeness relevance and impact the

10
00:00:28,400 --> 00:00:24,660
Kennedy Space Center likelihood of

11
00:00:30,439 --> 00:00:28,410
success value and sustainability the

12
00:00:32,540 --> 00:00:30,449
kickstart allows teams that show off

13
00:00:34,790 --> 00:00:32,550

their technologies and the winners get

14

00:00:37,670 --> 00:00:34,800

help of funding to continue developing

15

00:00:39,500 --> 00:00:37,680

top rated projects Space Station

16

00:00:41,660 --> 00:00:39,510

astronauts enjoyed a harvest day

17

00:00:43,549 --> 00:00:41,670

recently cutting three varieties of

18

00:00:45,340 --> 00:00:43,559

leafy greens from the veggie grove

19

00:00:47,869 --> 00:00:45,350

chamber aboard the orbiting laboratory

20

00:00:50,150 --> 00:00:47,879

they also installed hardware for the

21

00:00:52,700 --> 00:00:50,160

next generation of plant research known

22

00:00:55,369 --> 00:00:52,710

as the advanced plant habitat both have

23

00:00:57,470 --> 00:00:55,379

roots here at Kennedy this research is

24

00:00:59,529 --> 00:00:57,480

important as the agency makes plans for

25

00:01:01,910 --> 00:00:59,539

future missions into deep space

26

00:01:04,070 --> 00:01:01,920

astronauts get a nutritional boost as

27

00:01:07,280 --> 00:01:04,080

well as the psychological benefit of

28

00:01:09,649 --> 00:01:07,290

caring for growing plants and remember
