

A man with a shaved head, wearing a grey and white striped polo shirt with an Under Armour logo, is speaking. He is positioned on the right side of the frame. The background is dark blue with horizontal light streaks and a faint image of a rocket launch tower on the right.

NASA'S LAUNCH SERVICES PROGRAM

1

00:00:03,100 --> 00:00:08,000

Delta II has been a terrific rocket for NASA and our nation.

2

00:00:35,980 --> 00:00:39,980

We've often heard it referred to as the workhorse for NASA.

3

00:00:39,980 --> 00:00:48,320

It filled a really critical space in launching the variety of NASA science spacecraft over the years.

4

00:00:53,420 --> 00:00:59,380

We've gone to other planets, Mercury... "And lift off of Messenger on NASA's mission to Mercury."

5

00:01:00,460 --> 00:01:01,380

Mars...

6

00:01:05,100 --> 00:01:08,860

We've gone to the Moon, "zero, and lift off the Delta II..."

7

00:01:09,360 --> 00:01:14,740

It's a really special rocket filling the role for science.

8

00:01:23,650 --> 00:01:29,680

After almost 30 years of great service to our nation, Delta II is now flying out.

9

00:01:29,690 --> 00:01:31,100

We've got two last rockets.

10

00:01:31,100 --> 00:01:38,729

We're going to launch JPSS-1 in November of 2017, and then ICESat-2 in 2018.
