

INTRODUCING

America's

Multi-User Spaceport

1
00:00:04,279 --> 00:00:10,500

"It's great to be back at America's Space
Coast in this historic place with the men

2
00:00:10,500 --> 00:00:15,009

and women of the John F. Kennedy Space Center.

3
00:00:15,009 --> 00:00:20,960

And it's here today in the 21st century, that
the modern marvels that launched from these

4
00:00:20,960 --> 00:00:29,130

grounds prove that the public and private
sectors are achieving far more together than

5
00:00:29,130 --> 00:00:32,920

we ever have apart.

6
00:00:32,920 --> 00:00:39,510

American businesses are developing new rockets,
spaceships, satellites that are taking us

7
00:00:39,510 --> 00:00:49,140

further into space than ever before, and renewing
our confidence that we can and will achieve

8
00:00:49,140 --> 00:00:51,570

the impossible once again.

9
00:00:51,570 --> 00:00:57,579

This truth echoes through the history of the
Kennedy Space Center, named for a President

10
00:00:57,579 --> 00:01:02,699

who challenged the American people to marshal
the best of our - in his words - energy and

11
00:01:02,699 --> 00:01:07,350

skills to become the world's leading space-faring

nation.

12
00:01:07,350 --> 00:01:15,500
I know America will once again astonish the
world with the heights we reach and the wonders

13
00:01:15,500 --> 00:01:16,820
we achieve.

14
00:01:16,820 --> 00:01:21,990
And as these feats of America enterprise and
ingenuity attest, much more than the bridge
