LAUNCH SERVICES

1
00:00:02,149 --> 00:00:04,060
In the beginning of the NASA space program...

2
00:00:04,060 --> 00:00:08,429
...bigger was better.

3
00:00:08,429 --> 00:00:13,490
Big ideas required big rockets.

4
00:00:13,490 --> 00:00:17,550
These big rockets took us farther than we'd ever dreamed possible.

5
00:00:17,550 --> 00:00:24,009
First into orbit, and then to the moon.

6
00:00:24,009 --> 00:00:34,660
They've taken us to the edge of the solar system, and beyond.

7
00:00:34,660 --> 00:00:45,950
They've given us a new perspective on the universe.

8
00:00:45,950 --> 00:00:52,010
And allowed us to explore distant worlds.

9
00:00:52,010 --> 00:00:56,960
In the beginning big ideas required big rockets.

10
00:00:56,960 --> 00:01:03,880
But today, as technology continues to get smaller...

11
00:01:03,880 --> 00:01:08,250
...size is no longer the limit.

12

00:01:08,250 --> 00:01:11,360

Introducing NASA's Venture Class
Launch Service.

13

00:01:11,360 --> 00:01:13,040

A smaller class of rocket...

14

00:01:13,040 --> 00:01:22,540

...inspiring us to think bigger, dream
bigger than ever before.

15

00:01:22,540 --> 00:01:29,250

Venture Class, smaller rockets
designed by smaller teams.

16

00:01:29,250 --> 00:01:30,560

Dedicated payloads...

17

00:01:30,560 --> 00:01:32,690

...faster turnaround...

18

00:01:32,690 --> 00:01:36,880

...at a fraction of the cost.

19

00:01:36,880 --> 00:01:43,670

Launching satellites you can fit
in the palm of your hand.

20

00:01:43,670 --> 00:01:50,370

Helping to expand the industries of
science, technology, and communication.

21

00:01:50,370 --> 00:01:59,190

Bringing us closer together by making
space more accessible than ever before.

22

00:01:59,190 --> 00:02:03,030

Big ideas...

23

00:02:03,030 --> 00:02:07,380

Bigger dreams...
