1
00:00:06,789 --> 00:00:02,629
hi I'm NASA Kennedy's story long and I'm

2
00:00:13,280 --> 00:00:09,770
SpaceX launched its crew dragon atop the

3
00:00:15,730 --> 00:00:13,290
Falcon 9 rocket at 249 a.m. Eastern on

4
00:00:19,790 --> 00:00:15,740
Saturday March 2nd from launch complex

5
00:00:21,740 --> 00:00:19,800
39a at Kennedy Space Center crew dragons

6
00:00:25,340 --> 00:00:21,750
destination the International Space

7
00:00:27,200 --> 00:00:25,350
Station the mission called demo 1 is the

8
00:00:29,390 --> 00:00:27,210
first flight test of a space system

9
00:00:31,970 --> 00:00:29,400
designed for humans built and operated

10
00:00:34,160 --> 00:00:31,980
by a commercial company for NASA's

11
00:00:36,530 --> 00:00:34,170
Commercial Crew program tonight was a

12
00:00:41,959 --> 00:00:36,540
big night for the United States of

13
00:00:44,209 --> 00:00:41,969

America a great night for NASA what -

14

00:00:48,799 --> 00:00:44,219

what today really represents is a new

15

00:00:51,080 --> 00:00:48,809

era in space flight the crew dragon

16

00:00:53,180 --> 00:00:51,090

carried Ripley an anthropomorphic test

17

00:00:55,790 --> 00:00:53,190

device outfitted with sensors to provide

18

00:00:57,560 --> 00:00:55,800

data about potential effects on future

19

00:01:00,349 --> 00:00:57,570

astronauts who will travel in the

20

00:01:02,270 --> 00:01:00,359

spacecraft the spacecraft also carried

21

00:01:04,160 --> 00:01:02,280

more than 400 pounds of supplies and

22

00:01:07,429 --> 00:01:04,170

equipment for delivery to the space

23

00:01:09,469 --> 00:01:07,439

station crew dragon detached from the

24

00:01:11,840 --> 00:01:09,479

space station and returned to earth for

25

00:01:15,050 --> 00:01:11,850

a splashdown in the Atlantic Ocean off

26

00:01:17,480 --> 00:01:15,060

the Space Coast today and remember
