

1

00:00:00,030 --> 00:00:05,299

Heading in ground speed or green LC PEG  
peg is go for launch

2

00:00:05,299 --> 00:00:17,900

LC is go for launch PLT confirm standby  
and drop on my mark three two one drop

3

00:00:17,900 --> 00:00:26,970

pick us us away vehicle is fully armed  
stage 1 ignition has been confirmed

4

00:00:26,970 --> 00:00:30,750

launching icon to explore and unlock the  
mysteries of the weather where earth

5

00:00:30,750 --> 00:00:36,739

meets space route transonic power buses  
remain strong

6

00:00:38,329 --> 00:00:42,840

Stage one fin actuator system is  
operating nominally and controlling the

7

00:00:42,840 --> 00:00:45,950

aerodynamic flight of the vehicle

8

00:00:46,820 --> 00:00:53,610

vehicle has passed through max Q  
attitude remains nominal stage one has

9

00:00:53,610 --> 00:00:58,440

burned out attitude and the flight path  
are nominal Stage one separation

10

00:00:58,440 --> 00:01:07,140

confirmed stage 2 ignition has been  
confirmed and attitude is nominal Stage
