

1
00:00:01,930 --> 00:00:11,050

Launch Commentator Joshua Santora: Nine, eight, seven, six, five, four, three, two, one, zero

2
00:00:11,050 --> 00:00:44,140

— engines ignition ... liftoff of the Falcon 9 and cargo Dragon transporting critical research

3
00:00:44,140 --> 00:01:19,720

to enable living and working in Earth orbit and in deep space.

4
00:01:19,720 --> 00:01:26,032

Communication (1:15): Vehicle is supersonic.

5
00:01:26,032 --> 00:01:29,270

Vehicle has reached maximum aerodynamic pressure.

6
00:01:29,270 --> 00:01:35,310

Santora (1:34): A couple of big calls there.

7
00:01:35,310 --> 00:01:40,470

Again, all normal, all nominal and progressing as expected, flying through the densest part

8
00:01:40,470 --> 00:01:41,470

of the atmosphere.

9
00:01:41,470 --> 00:01:45,159

Communication (1:44): Recovery AOS.

10
00:01:45,159 --> 00:01:50,079

M-VAC engine chill.
