

1
00:00:06,670 --> 00:00:02,690
I'm NASA Kennedy's Tiffany Farrelly and

2
00:00:08,960 --> 00:00:06,680
an outside KC taking you inside KSC

3
00:00:10,970 --> 00:00:08,970
critical work is being accomplished to

4
00:00:12,860 --> 00:00:10,980
ensure NASA's Kennedy Space Center in

5
00:00:15,350 --> 00:00:12,870
Florida is prepared to support the

6
00:00:17,810 --> 00:00:15,360
Artemis program NASA's Orion spacecraft

7
00:00:19,929 --> 00:00:17,820
for Artemis one returned to Kennedy from

8
00:00:22,460 --> 00:00:19,939
the agency's plum Brook station in Ohio

9
00:00:24,500 --> 00:00:22,470
there the spacecraft was put through the

10
00:00:26,660 --> 00:00:24,510
rigors of environmental testing at

11
00:00:28,939 --> 00:00:26,670
Kennedy a Ryan will undergo final

12
00:00:30,560 --> 00:00:28,949
processing and preparations prior to

13
00:00:33,080 --> 00:00:30,570

launching on the first in a series of

14

00:00:34,580 --> 00:00:33,090

increasingly complex missions these

15

00:00:37,010 --> 00:00:34,590

missions will include the landing of the

16

00:00:38,720 --> 00:00:37,020

first woman and the next man on the moon

17

00:00:42,380 --> 00:00:38,730

and ultimately paved the way to

18

00:00:44,240 --> 00:00:42,390

exploration of Mars and beyond SpaceX

19

00:00:46,010 --> 00:00:44,250

was chosen as the first US commercial

20

00:00:48,680 --> 00:00:46,020

provider under the gateway logistic

21

00:00:50,569 --> 00:00:48,690

services contract NASA selected the

22

00:00:52,970 --> 00:00:50,579

Hawthorne California company to deliver

23

00:00:55,910 --> 00:00:52,980

cargo experiments and other supplies to

24

00:00:57,680 --> 00:00:55,920

the agency's gateway in lunar orbit the

25

00:01:00,830 --> 00:00:57,690

award is an important milestone for the

26

00:01:02,510 --> 00:01:00,840

agency's Artemis program SpaceX will

27

00:01:05,119 --> 00:01:02,520

deliver critical pressurized and

28

00:01:07,880 --> 00:01:05,129

unpressurized cargo science experiments

29

00:01:09,950 --> 00:01:07,890

and supplies to the Gateway it includes

30

00:01:11,630 --> 00:01:09,960

sample collection materials and other

31

00:01:13,490 --> 00:01:11,640

items the crew may need on the Gateway

32

00:01:16,760 --> 00:01:13,500

and during their expeditions on the

33

00:01:19,670 --> 00:01:16,770

lunar surface more inside KSC check us
