

1  
00:00:05,269 --> 00:00:02,720  
the suit technicians are helping the

2  
00:00:08,059 --> 00:00:05,279  
crew climb inside they're holding back

3  
00:00:10,040 --> 00:00:08,069  
the hatch seals to protect the the seals

4  
00:00:11,360 --> 00:00:10,050  
on the hatch but also making sure the

5  
00:00:12,709 --> 00:00:11,370  
crew doesn't hit their head or anything

6  
00:00:14,030 --> 00:00:12,719  
on the way in even though they have

7  
00:00:17,390 --> 00:00:14,040  
helmets we still don't want that to

8  
00:00:19,310 --> 00:00:17,400  
happen and you know they they climbed in

9  
00:00:22,370 --> 00:00:19,320  
a couple minutes earlier than we

10  
00:00:24,590 --> 00:00:22,380  
expected them to but you know Lauren

11  
00:00:26,300 --> 00:00:24,600  
that you know SpaceX has rehearsed this

12  
00:00:28,070 --> 00:00:26,310  
over and over and over again with Bob

13  
00:00:29,480 --> 00:00:28,080

and Doug and you know some time and I've

14  
00:00:30,740 --> 00:00:29,490  
heard them say you know well we might be

15  
00:00:32,240 --> 00:00:30,750  
a little bit ahead of schedule if we're

16  
00:00:34,190 --> 00:00:32,250  
ready just gives them more time to check

17  
00:00:36,290 --> 00:00:34,200  
things out you know yeah so right now

18  
00:00:39,110 --> 00:00:36,300  
with the crew the the suit technicians

19  
00:00:41,540 --> 00:00:39,120  
are doing is they're strapping the crews

20  
00:00:43,280 --> 00:00:41,550  
feet into these restraints that the

21  
00:00:45,889 --> 00:00:43,290  
boots sit inside of there they're going

22  
00:00:48,290 --> 00:00:45,899  
to close those 5-point harnesses suit

23  
00:00:51,860 --> 00:00:48,300  
techs are getting the crew all buckled

24  
00:00:54,979 --> 00:00:51,870  
in they're gonna perform a comm check

25  
00:00:56,600 --> 00:00:54,989  
and that's again similar to what was

26

00:00:58,849 --> 00:00:56,610

done at the ONC building but this time

27

00:01:01,700 --> 00:00:58,859

the integrated two-way communications
