

COUNTDOWN TO  
**MARS**

1  
00:00:05,829 --> 00:00:03,110  
this is the nlm on the nlm net

2  
00:00:06,150 --> 00:00:05,839  
currently working no issues on range or

3  
00:00:13,190 --> 00:00:06,160  
the

4  
00:00:18,230 --> 00:00:13,200  
chance of violation

5  
00:00:22,870 --> 00:00:21,189  
the spacecraft did experience some

6  
00:00:24,950 --> 00:00:22,880  
earthquake activity at their

7  
00:00:27,029 --> 00:00:24,960  
control center in pasadena but appears

8  
00:00:29,349 --> 00:00:27,039  
to be ready to proceed

9  
00:00:30,470 --> 00:00:29,359  
and with that i would like to pull the

10  
00:00:33,110 --> 00:00:30,480  
team

11  
00:00:33,670 --> 00:00:33,120  
for final launch poll and spacecraft

12  
00:00:38,150 --> 00:00:33,680  
commit

13  
00:00:42,549 --> 00:00:38,160

configuration nasa ce nasa cesco

14

00:00:46,630 --> 00:00:42,559

sma sma is go smt

15

00:00:49,830 --> 00:00:46,640

smd is go nasa mission manager

16

00:00:52,950 --> 00:00:49,840

that's the mission manager is go lsp
