

T+00:00:48

1
00:00:07,190 --> 00:00:03,270
and nine eight

2
00:00:16,550 --> 00:00:07,200
seven six five four

3
00:00:19,830 --> 00:00:16,560
three two one zero

4
00:00:22,390 --> 00:00:19,840
and resilience rises not even gravity

5
00:00:32,470 --> 00:00:22,400
contains humanity when we explore

6
00:00:35,510 --> 00:00:34,549
that's the word we want to hear stage

7
00:00:42,950 --> 00:00:35,520
one propulsion

8
00:00:46,869 --> 00:00:45,590
this historic nominal flying crew on

9
00:00:50,150 --> 00:00:46,879
board dragon and

10
00:00:56,549 --> 00:00:54,389
stage one is preparing to throttle down

11
00:00:57,990 --> 00:00:56,559
this is in preparation for max q which

12
00:01:01,029 --> 00:00:58,000
is maximum aerodynamic

13
00:01:03,510 --> 00:01:01,039

pressure there's that call out for

14

00:01:05,429 --> 00:01:03,520

throttle down

15

00:01:08,030 --> 00:01:05,439

power and telemetry continued to be

16

00:01:09,190 --> 00:01:08,040

nominal for the vehicle now traveling at

17

00:01:17,830 --> 00:01:09,200

262

18

00:01:21,830 --> 00:01:19,510

and we will be passing through max q

19

00:01:25,429 --> 00:01:21,840

here shortly the largest structural load

20

00:01:26,230 --> 00:01:25,439

during ascent max q and there's that
