taking you...

1  
00:00:00,000 --> 00:00:08,812

Hi everyone. I'm NASA Kennedy's Kristen Leyva and I'm outside KSC, taking you Inside KSC.

2  
00:00:08,812 --> 00:00:15,390

The upgraded SpaceX cargo Dragon, which carried out the 21st Cargo Resupply Mission to the International S

3  
00:00:15,390 --> 00:00:22,708

splashed down Jan.13 off the coast of Florida after undocking earlier that day. Dragon was filled with more than

4  
00:00:22,708 --> 00:00:28,907

of valuable scientific experiments and other cargo. Just hours after splashdown, time-critical science from the s

5  
00:00:28,907 --> 00:00:34,539

was delivered to the labs at NASA Kennedy Space Center's Space Station Processing Facility.

6  
00:00:34,539 --> 00:00:41,292

The CRS-21 mission launched on Dec. 6 on a SpaceX Falcon 9 rocket from Launch Complex 39A at Kennedy

7  
00:00:42,234 --> 00:00:47,095

Built to take humans farther than they've ever gone before, NASA's Orion spacecraft was revealed for one

8  
00:00:47,095 --> 00:00:51,494

of the final times ahead of the Artemis I launch. With production completed, it will begin

9  
00:00:51,494 --> 00:00:56,798

ground processing by the Exploration Ground Systems and Jacobs teams. Artemis I is the first in a series
