

ORION CARRIER
L-03:19:48

1

00:00:00,000 --> 00:00:05,360

Marie Lewis, NASA Communications: There's Shane\h
Kimbrough, pilot Megan McArthur in the front;\h\h

2

00:00:05,360 --> 00:00:15,920

Megan blowing kisses. Thomas and Aki ...\h
ready for their ride to the space station.\h\h

3

00:00:17,360 --> 00:00:23,760

And inside the elevator there is a poster you can\h
see in the background – it has the signatures of\h\h

4

00:00:23,760 --> 00:00:34,160

folks who have worked on this mission. And here\h
they come! The Crew-2 astronauts taking their\h\h

5

00:00:34,160 --> 00:00:52,880

first steps outside before their journey to space.
Kate Tice, senior certification engineer, SpaceX:\h\h

6

00:00:52,880 --> 00:00:55,760

I love this moment. They're now\h
going to have the opportunity to\h\h

7

00:00:56,320 --> 00:01:03,680

wave goodbye from a safe distance; the distance\h
is normal protocol, of course, for spaceflight.\h\h

8

00:01:03,680 --> 00:01:11,840

And it looks like Bob Behnken is there in a\h
blue polo with the son of he and Megan McArthur.\h

9

00:01:11,840 --> 00:01:19,680

Transmission: O&C departure on schedule.
Lewis: All right, so we just heard that\h\h
