

**INSIDE
▶▶ KSC!**

1
00:00:04,550 --> 00:00:03,350
hi i'm nasa kennedy's michelle spencer

2
00:00:09,589 --> 00:00:04,560
and i'm taking you

3
00:00:12,070 --> 00:00:09,599
inside ksc boeing cst 100 starliner

4
00:00:14,230 --> 00:00:12,080
spacecraft for orbital flight test 2 is

5
00:00:17,349 --> 00:00:14,240
ready for its ride to space atop

6
00:00:18,950 --> 00:00:17,359
united launch alliance atlas 5 rocket

7
00:00:21,029 --> 00:00:18,960
starliner traveled from kennedy's

8
00:00:21,750 --> 00:00:21,039
commercial crew and cargo processing

9
00:00:26,870 --> 00:00:21,760
facility

10
00:00:28,790 --> 00:00:26,880
at cape canaveral space force station

11
00:00:32,069 --> 00:00:28,800
with the spacecraft now attached to the

12
00:00:33,990 --> 00:00:32,079
rocket oft2 is set to launch starliner

13
00:00:35,670 --> 00:00:34,000

on a mission to rendezvous and dock to

14

00:00:37,830 --> 00:00:35,680

the international space station july

15

00:00:39,670 --> 00:00:37,840

30th

16

00:00:42,150 --> 00:00:39,680

chili peppers will soon tempt the taste

17

00:00:44,310 --> 00:00:42,160

buds of astronauts on the space station

18

00:00:46,229 --> 00:00:44,320

nasa astronaut shane kimbrough recently

19

00:00:47,029 --> 00:00:46,239

activated the plant habitat o4

20

00:00:49,190 --> 00:00:47,039

experiment

21

00:00:51,029 --> 00:00:49,200

containing hatch chili pepper seeds it

22

00:00:52,709 --> 00:00:51,039

took researchers here at kennedy two

23

00:00:54,950 --> 00:00:52,719

years evaluating more than two dozen

24

00:00:57,270 --> 00:00:54,960

pepper varieties before selecting hybrid

25

00:00:58,790 --> 00:00:57,280

new mex espanola improved pepper

26

00:01:01,029 --> 00:00:58,800

the peppers will grow for about four

27

00:01:03,189 --> 00:01:01,039

months before astronauts harvest them

28

00:01:04,950 --> 00:01:03,199

the team at kennedy is part of ongoing

29

00:01:06,710 --> 00:01:04,960

research to supplement astronauts

30

00:01:08,870 --> 00:01:06,720

pre-packaged food with vitamins and

31

00:01:12,310 --> 00:01:08,880

nutrients from fresh produce enabling

32

00:01:14,469 --> 00:01:12,320

long-duration missions far from earth

33

00:01:15,749 --> 00:01:14,479
