

1
00:00:03,120 --> 00:00:07,670
and payload separation confirmed

2
00:00:10,549 --> 00:00:09,270
there it goes

3
00:00:14,470 --> 00:00:10,559
xp

4
00:00:16,310 --> 00:00:14,480
now in space in orbit around the equator

5
00:00:17,830 --> 00:00:16,320
ready to take in science and there go

6
00:00:19,590 --> 00:00:17,840
the solar arrays

7
00:00:21,910 --> 00:00:19,600
yeah that is incredible to be able to

8
00:00:24,230 --> 00:00:21,920
see that uh happen right after

9
00:00:26,870 --> 00:00:24,240
separation solar rays are starting to

10
00:00:30,310 --> 00:00:26,880
deploy uh that is a great for the xp

11
00:00:33,190 --> 00:00:30,320
spacecraft as they begin to start all

12
00:00:36,790 --> 00:00:33,200
their operation checkouts and getting xp
