

03:51:30

1  
00:00:04,870 --> 00:00:02,470  
and you're looking live at the crew

2  
00:00:07,269 --> 00:00:04,880  
dragon spacecraft on top of a falcon 9

3  
00:00:09,030 --> 00:00:07,279  
rocket set to launch four astronauts to

4  
00:00:11,669 --> 00:00:09,040  
the international space station in a

5  
00:00:12,549 --> 00:00:11,679  
little less than four hours but right

6  
00:00:14,950 --> 00:00:12,559  
now

7  
00:00:16,630 --> 00:00:14,960  
they're live inside the room right here

8  
00:00:19,750 --> 00:00:16,640  
crew 4 astronauts getting their

9  
00:00:21,510 --> 00:00:19,760  
spacesuits on and this is a live look

10  
00:00:23,429 --> 00:00:21,520  
inside that suit-up room where the crew

11  
00:00:27,109 --> 00:00:23,439  
of three americans and one european

12  
00:00:29,990 --> 00:00:27,119  
astronaut are completing their checkouts

13  
00:00:31,669 --> 00:00:30,000

of their spacesuits

14

00:00:33,590 --> 00:00:31,679

welcome everybody to the kennedy space

15

00:00:36,069 --> 00:00:33,600

center in florida for live coverage of

16

00:00:38,709 --> 00:00:36,079

nasa and spacex's launch of crew 4. i'm

17

00:00:41,190 --> 00:00:38,719

daryl nail and i'm with megan macarthur

18

00:00:42,869 --> 00:00:41,200

astronaut from crew 2 you were the pilot

19

00:00:44,150 --> 00:00:42,879

in that mission so it's great that you

20

00:00:45,590 --> 00:00:44,160

have that experience and that you're

21

00:00:47,750 --> 00:00:45,600

here to share it with us because you

22

00:00:49,750 --> 00:00:47,760

know this mission well but you also flew

23

00:00:51,510 --> 00:00:49,760

the space shuttle absolutely um it's

24

00:00:52,790 --> 00:00:51,520

always exciting to be at kennedy space

25

00:00:56,069 --> 00:00:52,800

center

26  
00:00:57,670 --> 00:00:56,079  
excited to see my friends getting ready

27  
00:00:59,349 --> 00:00:57,680  
to fly they all have big smiles on their

28  
00:01:00,630 --> 00:00:59,359  
faces and it's going to be a great time

29  
00:01:02,310 --> 00:01:00,640  
watching them get ready tonight

30  
00:01:05,509 --> 00:01:02,320  
absolutely it all started when they woke

31  
00:01:07,429 --> 00:01:05,519  
up today at 8 37 pm

32  
00:01:09,350 --> 00:01:07,439  
yesterday because we just rolled over

33  
00:01:11,590 --> 00:01:09,360  
midnight into wednesday but it was

34  
00:01:13,510 --> 00:01:11,600  
tuesday just a few hours ago and that

35  
00:01:15,910 --> 00:01:13,520  
gets everything rolling that's right

36  
00:01:18,310 --> 00:01:15,920  
it's uh we think of the day is starting

37  
00:01:20,070 --> 00:01:18,320  
sort of at launch time but in fact

38  
00:01:20,950 --> 00:01:20,080

they've been up for many hours going

39

00:01:22,630 --> 00:01:20,960

through

40

00:01:24,469 --> 00:01:22,640

some weather briefings some last minute

41

00:01:26,710 --> 00:01:24,479

checks and as we see them right now

42

00:01:28,230 --> 00:01:26,720

going through the suit checkout before

43

00:01:29,830 --> 00:01:28,240

they take the next steps to head out

44

00:01:31,190 --> 00:01:29,840

toward the rocket and we'll and we'll

45

00:01:32,630 --> 00:01:31,200

jump back into the room here in just a

46

00:01:35,109 --> 00:01:32,640

second to get more of your insight on

47

00:01:37,030 --> 00:01:35,119

that we want to invite you at home who

48

00:01:45,350 --> 00:01:37,040

are participating you you can

49

00:01:48,310 --> 00:01:47,190

there you'll hear the operational audio

50

00:01:49,830 --> 00:01:48,320

we'll have that playing in the

51  
00:01:52,469 --> 00:01:49,840  
background from time to time we'll try

52  
00:01:54,550 --> 00:01:52,479  
to make sure our comments are

53  
00:01:56,709 --> 00:01:54,560  
down and low when they talk so you can

54  
00:01:58,789 --> 00:01:56,719  
hear that but in addition to megan's

55  
00:02:00,630 --> 00:01:58,799  
analysis we also have teams around the

56  
00:02:02,310 --> 00:02:00,640  
country covering all the action and

57  
00:02:04,389 --> 00:02:02,320  
there you see them now we'll get updates

58  
00:02:06,469 --> 00:02:04,399  
from spacex headquarters in hawthorne

59  
00:02:08,790 --> 00:02:06,479  
california as well as nasa's mission

60  
00:02:10,630 --> 00:02:08,800  
control center in houston and of course

61  
00:02:11,990 --> 00:02:10,640  
right here in florida and there's dan

62  
00:02:13,430 --> 00:02:12,000  
and jesse mugging for the camera

63  
00:02:15,270 --> 00:02:13,440

appreciate that

64

00:02:17,830 --> 00:02:15,280

and of course the rocket is on the pad

65

00:02:20,869 --> 00:02:17,840

we'll talk with crew 3 astronaut raja
