

1

00:00:00,630 --> 00:00:03,750

Derrol Nail (NASA Communications): They're getting suited up inside that historic suit-up

2

00:00:03,750 --> 00:00:09,530

room, everything going smoothly.

3

00:00:09,530 --> 00:00:14,889

And there they are – the astronauts of Crew-5 taking their first steps outside as they head

4

00:00:14,889 --> 00:00:15,889

to the pad.

5

00:00:15,889 --> 00:00:16,949

From left to right:

6

00:00:16,949 --> 00:00:26,289

cosmonaut Anna Kikina, Josh Cassada, commander Nicole Mann, and Koichi Wakata.

7

00:00:26,289 --> 00:00:28,929

And here we go, the first two astronauts to

8

00:00:28,929 --> 00:00:30,890

board Crew Dragon.

9

00:00:30,890 --> 00:00:34,320

On the left, Josh Cassada, and on the right, commander Nicole Mann.

10

00:00:34,320 --> 00:00:35,870

And here come our second two

11

00:00:35,870 --> 00:00:40,590

astronauts, mission specialists Koichi Wakata and Anna Kikina.

12

00:00:40,590 --> 00:00:44,650

Launch Control: T-minus two hours and forty-four minutes.

13

00:00:44,650 --> 00:00:46,870

Crew have begun ingressing Dragon.

14

00:00:46,870 --> 00:00:52,960

Ground Operations: Ready for seat rotation.

15

00:00:52,960 --> 00:00:58,481

Nail: We got a good side hatch leak check, and we're good to go.

16

00:00:58,481 --> 00:00:59,481

Launch Control: One, ignition, engines full power, and liftoff (cheers and applause).

17

00:00:59,481 --> 00:01:00,481

Sandra Jones (NASA Commentator): Liftoff!

18

00:01:00,481 --> 00:01:01,481

Endurance extends its wings – a Dragon soaring into space.

19

00:01:01,481 --> 00:01:02,481

Launch Control: Stage one propulsion is nominal.
