

ARTEMIS I LAUNCH

T+0:16:29

1
00:00:03,659 --> 00:00:08,930
well for once I might be speechless

2
00:00:13,730 --> 00:00:11,209
so you guys know I have talked a lot

3
00:00:16,430 --> 00:00:13,740
about appreciating the moment that

4
00:00:18,590 --> 00:00:16,440
you're in and we have worked hard as a

5
00:00:32,870 --> 00:00:18,600
team you guys have worked hard as a team

6
00:00:36,650 --> 00:00:35,690
it is not by chance that you are here

7
00:00:38,990 --> 00:00:36,660
today

8
00:00:40,369 --> 00:00:39,000
so I want you to look around look around

9
00:00:43,369 --> 00:00:40,379
at this team

10
00:00:45,010 --> 00:00:43,379
and know that you have earned it you

11
00:00:48,110 --> 00:00:45,020
have earned your place in the room

12
00:00:52,190 --> 00:00:48,120
you've earned this moment you have

13
00:00:58,189 --> 00:00:55,549

you were part of a first then come along

14

00:01:01,189 --> 00:00:58,199

very often

15

00:01:02,810 --> 00:01:01,199

once in a career Maybe

16

00:01:06,350 --> 00:01:02,820

but we are all part of something

17

00:01:11,750 --> 00:01:06,360

incredibly special the first launch of

18

00:01:11,760 --> 00:01:15,410

foreign

19

00:01:20,390 --> 00:01:18,050

the first step in returning our country

20

00:01:27,710 --> 00:01:20,400

to the Moon

21

00:01:33,469 --> 00:01:30,170

what you have done will what you have

22

00:01:35,390 --> 00:01:33,479

done today will inspire generations to

23

00:01:38,090 --> 00:01:35,400

come

24

00:01:39,890 --> 00:01:38,100

so thank you thank you for your

25

00:01:42,050 --> 00:01:39,900

resilience

26
00:01:44,870 --> 00:01:42,060
you know I said at the pre-test briefing

27
00:01:45,830 --> 00:01:44,880
the heart of the climb the better The

28
00:01:48,050 --> 00:01:45,840
View

29
00:01:50,810 --> 00:01:48,060
we showed the Space Coast tonight what a

30
00:01:52,430 --> 00:01:50,820
beautiful view it is

31
00:01:58,670 --> 00:01:52,440
so congratulations

32
00:02:01,249 --> 00:01:58,680
[Applause]

33
00:02:03,530 --> 00:02:01,259
so we got a couple of traditions here in

34
00:02:06,350 --> 00:02:03,540
launch control

35
00:02:08,449 --> 00:02:06,360
and the first one is

36
00:02:10,010 --> 00:02:08,459
when you're in the position for the

37
00:02:12,650 --> 00:02:10,020
first time

38
00:02:16,250 --> 00:02:12,660

you get a tie cutting

39

00:02:17,930 --> 00:02:16,260

and so I

40

00:02:21,170 --> 00:02:17,940

I have my

41

00:02:23,330 --> 00:02:21,180

launch director scissors

42

00:02:25,910 --> 00:02:23,340

and I'm going to get my tie cut by a

43

00:02:28,790 --> 00:02:25,920

couple of Legends that are here

44

00:02:30,830 --> 00:02:28,800

and then anyone who wants their tie cut

45

00:02:33,170 --> 00:02:30,840

will be making the rounds in the firing

46

00:02:35,449 --> 00:02:33,180

room you got your console Chiefs if they

47

00:02:37,309 --> 00:02:35,459

want to do it that's fine if you want me

48

00:02:39,350 --> 00:02:37,319

to do it you might have to wait a little

49

00:02:43,309 --> 00:02:39,360

while but I'll stay all night if I have

50

00:02:45,650 --> 00:02:43,319

to it'll be my pleasure to cut ties

51
00:02:47,530 --> 00:02:45,660
so I'm gonna get gonna take care of mine

52
00:03:07,610 --> 00:02:47,540
and then I have one other presentation

53
00:03:11,630 --> 00:03:09,770
this is Charlie Blackwell Thompson

54
00:03:15,229 --> 00:03:11,640
Artemis one launch director she just got

55
00:03:16,790 --> 00:03:15,239
her tie cut that is a tradition here at

56
00:03:19,670 --> 00:03:16,800
NASA

57
00:03:20,990 --> 00:03:19,680
we just got to hear her talk to the team

58
00:03:22,309 --> 00:03:21,000
and one thing that really stuck out to
