

+0:52:42

1  
00:00:09,470 --> 00:00:07,309  
right payload separation confirmed you

2  
00:00:11,690 --> 00:00:09,480  
see the spacecraft floating away right

3  
00:00:13,610 --> 00:00:11,700  
now from the second stage

4  
00:00:16,070 --> 00:00:13,620  
and at this point the launch vehicle's

5  
00:00:18,290 --> 00:00:16,080  
uh job is done so the second stage

6  
00:00:20,810 --> 00:00:18,300  
you'll just basically kind of back off

7  
00:00:23,450 --> 00:00:20,820  
move away from the the spacecraft and

8  
00:00:24,890 --> 00:00:23,460  
kind of take itself out of orbit just so
