1
00:00:00,539 --> 00:00:03,600
foreign

2
00:00:03,610 --> 00:00:16,090
[Music]

3
00:00:24,170 --> 00:00:20,950
Pioneers star Sailors and adventurers

4
00:00:27,170 --> 00:00:24,180
we're going Beyond anywhere we ever went

5
00:00:33,920 --> 00:00:30,910
Splashdown Orion back on Earth

6
00:00:36,889 --> 00:00:33,930
and there's a lot more coming

7
00:00:39,110 --> 00:00:36,899
[Music]

8
00:00:41,209 --> 00:00:39,120
our destiny is always to go and see

9
00:00:43,430 --> 00:00:41,219
what's further and what's next

10
00:00:45,709 --> 00:00:43,440
they're actually Metals being bent

11
00:00:49,490 --> 00:00:45,719
shaped formed to build the things that

12
00:00:54,410 --> 00:00:52,130
honest is reality now say that a

13
00:00:56,630 --> 00:00:54,420

historic inflection coin poised to begin

14

00:00:59,090 --> 00:00:56,640

the most significant series of Science

15

00:01:00,250 --> 00:00:59,100

and human exploration missions in over a

16

00:01:02,990 --> 00:01:00,260

generation

17

00:01:05,570 --> 00:01:03,000

astronauts will live and work in deep

18

00:01:08,929 --> 00:01:05,580

space and will develop the science and

19

00:01:11,090 --> 00:01:08,939

technology to sin the first humans to

20

00:01:12,469 --> 00:01:11,100

Mars I'm really looking forward to all

21

00:01:14,210 --> 00:01:12,479

the science we will conduct on the moon

22

00:01:15,890 --> 00:01:14,220

the samples will bring back the

23

00:01:17,570 --> 00:01:15,900

knowledge we'll gain from understanding

24

00:01:18,770 --> 00:01:17,580

the lunar environment better than we

25

00:01:21,289 --> 00:01:18,780

ever have before

26

00:01:23,390 --> 00:01:21,299

the more Nations and companies at the

27

00:01:25,310 --> 00:01:23,400

moon the more we learn increasing our

28

00:01:26,870 --> 00:01:25,320

capabilities while strengthening things

29

00:01:28,550 --> 00:01:26,880

right here on Earth

30

00:01:30,530 --> 00:01:28,560

we are going to the Moon

31

00:01:33,860 --> 00:01:30,540

to learn how to live on other planets

32

00:01:35,149 --> 00:01:33,870

for the benefit of all

33

00:01:47,230 --> 00:01:35,159
