

1  
00:00:04,490 --> 00:00:01,670  
will confirm go no-go for test

2  
00:00:08,360 --> 00:00:04,500  
operations engineer flight software yo

3  
00:00:11,060 --> 00:00:08,370  
AE no data go come in and systems

4  
00:00:14,030 --> 00:00:11,070  
engineering is go RCL now system safety

5  
00:00:19,070 --> 00:00:14,040  
no test director so test conductor is

6  
00:00:23,179 --> 00:00:19,080  
good tropical valve is open thrusters

7  
00:00:24,830 --> 00:00:23,189  
meet pressure is 750 psi all propulsion

8  
00:00:32,740 --> 00:00:24,840  
system pressures and temperatures are

9  
00:00:39,790 --> 00:00:35,980  
seously be mandated the lining GFE

10  
00:00:43,950 --> 00:00:39,800  
Vietnam ready count down to one nominal

11  
00:00:43,960 --> 00:00:48,850  
April is hovering

12  
00:00:48,860 --> 00:00:54,500  
fbp 15

13  
00:01:01,220 --> 00:00:57,550

Every 40

14

00:01:03,300 --> 00:01:01,230

altitude estimators

15

00:01:06,780 --> 00:01:03,310

50 25

16

00:01:08,750 --> 00:01:06,790

altitude 2 meters lateral look good FHP

17

00:01:29,000 --> 00:01:08,760

30
