

A wide-angle shot of a large industrial facility, possibly a nuclear power plant, showing a central reactor vessel or containment structure. The structure is complex, with various pipes, valves, and support beams. The scene is dimly lit, with a bright light source visible through a large opening in the background, suggesting an outdoor area or a very bright interior. Several workers in hard hats and safety gear are visible on different levels of the structure, engaged in various tasks. The overall atmosphere is industrial and busy.
