

Camera-1 - North Pad Cam

8/8/2012

9:11:59.634 AM

1
00:00:04,390 --> 00:00:01,910
copy

2
00:00:06,230 --> 00:00:04,400
going to pre-flight now

3
00:00:07,749 --> 00:00:06,240
vehicle state is pre-flight

4
00:00:21,429 --> 00:00:07,759
prop tanks

5
00:00:22,550 --> 00:00:21,439
carbisol valve is now open speed

6
00:00:23,910 --> 00:00:22,560
pressure is up

7
00:00:25,189 --> 00:00:23,920
chance to be nav state has flipped back

8
00:00:28,790 --> 00:00:25,199
into alignment

9
00:00:28,800 --> 00:00:34,870
fade activated aligning

10
00:00:43,270 --> 00:00:37,830
final alignment nav is ready

11
00:00:47,350 --> 00:00:44,630
should be reaching our target altitude

12
00:00:50,150 --> 00:00:47,360
of 10 meters

13
00:00:53,990 --> 00:00:50,160

and we're going to begin translation

14

00:00:56,709 --> 00:00:54,000

image processing will have begun if we

15

00:00:58,549 --> 00:00:56,719

that will not be fed anywhere though

16

00:01:01,590 --> 00:00:58,559

we should be back in position control

17

00:01:01,600 --> 00:01:06,149

hovering we should begin descending
